TARIFF FORMAT

- A. **Page Numbering** - Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new pages are occasionally added to the tariff. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between Page 14 and 15 would be 14.1.
- B. **Page Revision Numbers** - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the Commission. For example, the 4th revised Page 14 cancels the 3rd revised Page 14.
- C. **Paragraph Numbering Sequence** - There are various levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2
 - 2.1
 - 2.1.1
 - 2.1.1.1
- D. **Check Sheets** - When a tariff filing is made with the Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the pages contained in the tariff, with a cross-reference to the current revision number. When new pages are added, the Check Sheet is changed to reflect the revision. An asterisk designates all revisions made in a given filing (*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remain the same, just revised revision levels on some pages.) The tariff user should refer to the latest Check Sheet to find out if a particular page is the most current on file with the Commission.

CHECK SHEET

Sheets 1 through 31 inclusive of this tariff are effective as of the date shown at the bottom of the respective sheet(s). Original and revised sheets as named below comprise all changes from the original tariff and are currently in effect as of the date on the bottom of this sheet.

2.2.1.1 The payment of all applicable charges pursuant to this tariff;

2.2.1.2 Reimbursing the Company for damage to, or loss of, the Company's facilities or equipment caused by the acts or omissions of the customer; or the noncompliance by the customer, with these regulations, or by fire or theft or other casualty on the customer's premises unless caused by the negligence or willful misconduct of the employees or agents of the Company.

2.3.4 Defacement of Premises

2.3.4.1 The Company is not liable for any defacement of, or damage to, the customer's premises resulting from the furnishing of service or the attachment of equipment and facilities furnished by the Company on such premises or by the installation or removal thereof, when such defacement or damage is not the result of negligence of the Company. 2.3.7.2 Acceptance of the provisions of Section 2.3 by the Commission does not constitute its determination that any disclaimer of warranties or representations imposed by the Company should be upheld in a court of law.

2.3.8 Limitation of Liability

2.3.8.1 Nothing in this tariff shall be construed to limit the Company's liability in cases of gross negligence or willful misconduct.

2.4 Application for Service

2.4 Application for Service (Cont'd.)

2.4.2 Cancellation of Service

2.4.2.1 Where the applicant cancels an order for service prior to the start of the installation or special construction of facilities, no charge shall apply, except to the extent the Company incurs a service order or similar charge from a supplying carrier, if any, prior to the construction.

2.4.2.2 Where the installation of facilities, other than those provided by special construction, has been started prior to cancellation, the lower of the following charge applies;

2.4.2.2.A The total costs of installing and removing such facilities; or

2.5 Payment for Service

- 2.5.1 Service will be billed directly by the Company on a monthly basis and is due and payable upon receipt or as specified on the customer's bill. Service will continue to be provided until canceled by the customer or discontinued by the Company as set forth in Section 2.14 of this tariff.
- 2.5.2 The customer is responsible for payment of all charges for service furnished to the customer. Charges based on actual usage during a month will be billed monthly in the month following the month in which the service was used. All fixed monthly and nonrecurring charges for services ordered will be billed monthly in advance.
- 2.5.3 The Company reserves the right to require from an applicant for service advance payments of fixed charges and nonrecurring charges. The advance payment will not exceed an amount equal to the nonrecurring charge(s) and one month's charges for the service or facility. In addition, where special construction is involved, the advance payment may also include an amount equal to the estimated nonrecurring charges for the special construction. The advance payment will be applied to any indebtedness for the service and facilities for which the advance payment is made on the customer's initial bill.

Advanced payments for installation costs or special construction will be credited on the first bill in their entirety.

- 2.5.4 If the Company provides service under a term plan (1,3,5 years, etc.) and (1) automatically renews the contract, and (2) imposes a penalty for early cancellation by the customer, then the customer shall be notified 60 days in advance of the customer's current contract expiration date.

- 2.6.3 Deposits for establishment or reestablishment of credit will not be more than the estimated charge for service for 2 consecutive billing periods or 90 days, whichever is less.
- 2.6.4 Customer deposits shall be maintained in a bank located in Maryland. Customers who make a deposit for service will receive interest, at a rate set on such deposit not less than the rate calculated by the method set forth in COMAR 20.30.01.04 (for nonresidential customers).

4. Rates and Charges

4.1 Schedule 1: DEDICATED POINT-TO-POINT PERMANENT
VIRTUAL CIRCUIT (“PVC”) TRANSPORT SERVICE

4.1.1 Service Description

Dedicated Point-To-Point PVC Transport Service is available on the Company’s Distributed Antenna System Networks. Dedicated Point-To-Point PVC Transport Service begins at a Company Head End. Customers are responsible for providing or obtaining circuits to connect from their networks to the Company Head End. The Head End contains Customers’ circuit terminating equipment, Base Transceiver Station and related peripheral equipment, as well as Company’s and/or Customer’s RF/Optical conversion equipment. The RF/Optical conversion equipment converts Customers’ RF signals into optical signals, and places those signals into a PVC that traverses Company DAS network facilities between the Head End and one or more Points of Presence (“POPs”).

4.1.2 Monthly Recurring Rate Elements

The following monthly recurring rate elements apply to Dedicated Point-To-Point PVC Transport Service:

4.1.2.1 Signal Conversion Rate

Signal Conversion Rates apply where Company owns the RF/optical conversion equipment. Signal Conversion Rates are not applicable when the Customer owns the RF/optical conversion equipment.

4.1.2.2 Local Signal Conversion Rate

A Local Signal Conversion Rates applies when the RF/optical conversion equipment located at the Head End is owned and operated by Company.

4.1.2.3 Remote Signal Conversion Rates

Remote Signal Conversion Rates apply when the RF/optical conversion equipment located at the POPs distributed throughout a Company network is owned and operated by Company.

4.1.2.4 Committed Information Rate

The Committed Information Rate (“CIR”) of a PVC is the amount of bandwidth selected by Customer to carry the RF traffic that is optically converted and transported over the Company DAS network, stated in MegaHertz (“MHZ”) and made available in Tiers (increments) of 5 MHZ to 60 MHZ per PVC.

4.1.2.5 Permanent Virtual Circuit (“PVC”) Rate Elements

PVC Rate Elements relate to both the physical layer and the bandwidth required to create a PVC to transport Customer’s CIR from the Head End to one or more POPs on the Company DAS network. The rate elements that will apply depend on the type of optical conversion and multiplexing methodology used to aggregate one or more Customer CIR Tiers over a PVC to one or more POPs.

4.1.2.6 Dedicated Strand Charge

The Dedicated Strand Charge applies to PVCs utilizing one or more dim or dark fibers between the Head End and the POP(s).

4.1.2.7 Wave Division Multiplexed (“WDM”) Charge

The WDM Charge applies to PVCs utilizing one or more lambdas engineered with WDM technology and equipment on a fiber between the Head End and the POP(s). The WDM charge applies to all current and future variations of WDM, including but not limited to Coarse Wave and Dense Wave Division Multiplexing in both analog and digital transport topologies.

4.1.2.8 SONET Ring Charge

The SONET Ring Charge applies to a PVC deployed on a SONET ring network configuration, using Dedicated Strand(s) or WDM, engineered in a point to multi-point configuration. SONET Ring PVCs may be provisioned using customary add/drop, physical interconnect or WDM technology for both originating and terminating traffic, from a head end to one or more POPs connected to the SONET Ring.

4.1.2.9 Add/Drop Charges

Add/Drop charges apply to each POP requested by Customer on a SONET Ring or point to multi-point PVC.

4.1.3 Non-Recurring Rate Elements

The following non-recurring rate elements may apply to Dedicated Point-To-Point PVC Transport Service:
