TARIFF FORMAT

This tariff is divided into the following major sections:

General

Section 1: Definitions

Section 2: General Regulations

Section 3: Rules

Section 4: Rate Schedules

- A. Sheet Numbering:** Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.
- B. Sheet Revision Numbers:** Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the Florida Public Service Commission. For example, the 4th revised Sheet 14 cancels the 3rd revised Sheet 14. Because of various suspension periods, deferrals, etc., the Florida Public Service Commission follows in their tariff approval process, the most current sheet number on file with the Florida Public Service Commission is not always the tariff sheet in effect. Consult the Check Sheet for the sheet currently in effect.
- C. Paragraph Numbering Sequence:** There are seven levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2
 - 2.1
 - 2.1.1
 - 2.1.1.1
 - 2.1.1.1.1
 - 2.1.1.1.1.1
 - 2.1.1.1.1.1.1
- D. Check Sheets:** When a tariff filing is made with the Florida Public Service Commission, an updated check sheet accompanies the tariff filing. The check sheet lists the sheets contained in the tariff, with a cross reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision.

3.5 SPECIAL ARRANGEMENTS AND CONSTRUCTION

Special arrangements will be developed on a case-by-case basis in response to a bona fide special request from a Customer or prospective Customer to develop a competitive bid for a service not generally available under this Tariff. Rates and charges for special arrangements or special construction will be offered to the Customer in writing and on a non-discriminatory basis. All Special Arrangements will be filed with the Commission.

Where the Company furnishes a facility or service under a special arrangement or special construction, charges will be based on the costs incurred by the Company and may include: (1) non-recurring charges; (2) monthly recurring charges; (3) termination liabilities; or (4) combinations thereof.

3.5.1 Basis for Cost Computation

Costs for special construction may include one or more of the following items to the extent they are applicable:

3.5.1.1 Cost of installed facilities to be provided including estimated costs for the rearrangements of existing facilities. These costs may include:

- (a) installation of equipment and materials provided or used;
- (b) engineering, labor and supervision during construction;
- (c) transportation of materials; and

3.0 GENERAL RULES AND REGULATIONS (cont'd)**3.5 SPECIAL ARRANGEMENTS AND CONSTRUCTION (cont'd)**

facilities with an appropriate allowance for the estimated net salvage

3.5.1.4 Administration, taxes and uncollectible revenue on the basis of reasonable average costs for these items

3.5.1.5 License preparation, processing and related fees;

3.5.1.6 Tariff preparation, processing and other related regulatory fees;

3.5.1.7 Any other identifiable costs related to the facilities provided; and

3.5.1.8 An amount for return and contingencies.

3.6 TERMINATION LIABILITY FOR SPECIAL CONSTRUCTION

To the extent that there is no other requirement for use by the Company, a termination liability may apply for facilities specially constructed at the request of the Customer, whether or not the Company has begun providing service.

3.6.1 The termination liability period is the estimated service life of the facilities provided.

3.6.2 The amount of the maximum termination liability is equal to the estimated cost for installation and operation of the service during its service life. Costs include those items previously listed in Section 3.5.1 above.

3.6.3 The applicable termination liability will be calculated based on the following:

3.6.3.1 Multiplying the sum of the amounts determined as set forth in Section 3.5.1 above by a factor related to the unexpired period of liability and the discount rate for return and contingencies. The amount determined in Section 3.5.1 above shall be

3.0 GENERAL RULES AND REGULATIONS (cont'd)**3.6 TERMINATION LIABILITY FOR SPECIAL CONSTRUCTION (cont'd)**

adjusted to reflect the predetermined estimate net salvage, if any, including any reuse of the facilities provided.

3.6.3.2 The final termination liability is then adjusted to reflect applicable taxes or regulatory fees.

3.7 NON-ROUTINE INSTALLATION AND/OR MAINTENANCE

At the Customer's request, installation and/or maintenance may be performed outside the Company's regular business hours, or (in the Company's sole discretion and subject to any conditions it may impose) in hazardous locations. In such cases, charges based on the cost of labor, material, and other costs incurred by or charged to the Company will apply. If installation is started during regular business hours but, at the Customer's request, extends beyond regular business hours into time periods including, but not limited to, weekends, holidays, and/or night hours, additional charges may apply.

3.8 APPLICATION FOR SERVICE

Applicants must initiate service with the Company pursuant to a completed and signed written service order. Prior to finalizing a written agreement for services, the Company will inform Customer of all rates and charges for the desired services and any other rates or charges that will appear on the Customer's first bill.

In addition, within 10 days of initiating service, the Company will provide a new Customer a written statement of all material terms and conditions affecting what the Customer will pay for services provided by Company.

Filing an application for service pursuant to this Tariff authorizes the Company to conduct a credit search on the Customer. The Company reserves the right to refuse service on the basis of credit history. The Company shall provide applicants who are denied service for failure to establish credit or pay a deposit the reason for the denial in writing within 10 days of the service denial.

3.0 GENERAL RULES AND REGULATIONS (cont'd)

3.8.1 Cancellation of Application for Service

Where the applicant cancels an application for service prior to the receipt of final order confirmation, or prior to the start of special construction, no charge applies.

Where installation of service has been started prior to the cancellation, a cancellation charge equal to the costs incurred by the Company may apply. Such charges will be calculated on a case-by-case basis.

3.9 CONTRACT RATES/CUSTOMER SPECIFIC PRICING

Contracts will be used in special circumstances for Individual Case Basis (“ICB”) service offerings, Special Construction and Special Arrangements. The terms and conditions of each contract offering are subject to the agreement of both the Customer and Company. Such contract offerings will be made available to similarly situated Customers in substantially similar circumstances. Contracts are available to any similarly situated Customer that places an order within 90 days of the contract’s effective date. Each customer contract is subject to the Commission’s rules and regulations, if any, for such contracts. All customer contracts will be filed with the Commission.

3.0 GENERAL RULES AND REGULATIONS (cont'd)

3.10 ADVANCE PAYMENT

The Company may require the Customer or a potential Customer to provide information pertaining to its financial ability to pay for service. The Company may deny service to Customers who do not provide the requested information or who fail to meet Company's financial criteria, unless the Customer is willing to pay a deposit based upon the rules contained in this tariff. If service was discontinued for non-payment of charges, the Company may request additional information from the Customer, and reserves the right to collect an advance payment and/or deposit prior to re-establishing service.

At the time an application for service is made, an applicant may be required to pay an amount equal to one month's service charges and/or the service connection and/or equipment charges which may be applicable, as well as any nonrecurring charges for any required special construction. The amount of the first month's service is credited to the Customer's account on the first bill rendered.

3.10.1 Credit Information and Deposits

Each applicant for service shall provide credit information satisfactory to the Company or pay a deposit. Deposits shall not be required if the Customer:

- (a) Provides credit history acceptable to the Company;
- (b) Provides a cosigner or guarantor with credit history acceptable to the Company in order to establish credit for service; or
- (c) Provides a deposit to establish credit for service; provided however, the Company may determine the acceptable form of the Customer's deposit (*e.g.* cashier's check, money order, bond, or letter of credit).

3.0 GENERAL RULES AND REGULATIONS (cont'd)

3.11 DEPOSIT

3.11.1 History of Late Payments/Deposit Requirement

The Company may, in order to safeguard its interests, require a Customer that has a proven history of late payments to the Company, or does not have established credit, to make a deposit prior to or at any time after the provision of service to the Customer. The Company reserves the right to review a Customer's credit history at any time as part of the Company's determination of whether a deposit is required. Such deposit is to be held by the Company as a guarantee of the payment of rates and charges, and does not relieve the Customer of the responsibility for the prompt payment of bills on presentation. No such deposit will be required of a Customer that has established credit and has no history of late payments to the Company.

3.11.2 Deposit Amount

A deposit will be no greater than twice the estimated average monthly bill for the class of service requested. The fact that a deposit has been made in no way relieves the Customer from complying with the Company's requirement as to the prompt payment of bills. In the event a customer requests services in addition to basic service, the average bill will reflect the aggregate services requested by the Customer. If the amount of a deposit is proven to be less than required to meet the requirements specified above, due to non-payment, disconnection or both, the Customer shall be required to pay an additional deposit upon request.

3.0 GENERAL RULES AND REGULATIONS (cont'd)**3.11.3 Deposit Receipt**

The Company shall provide the Customer with a deposit receipt for any deposit received. The receipt shall show the Customer's name, service address, type of service, amount of deposit, rate of interest on deposit, date received, the Company's name and a statement of the conditions under which the deposit will be refunded. The Company will refund the Customer's deposit even if the Customer has lost the receipt.

3.11.4 Refund of Deposit

At such time as the provision of the service to the Customer is terminated, the Company will return the deposit within 30 days after discontinuance of service or after 12 months of service, whichever occurs first. The deposit, including accrued interest, but less the amount of any unpaid bills for service furnished by the Customer, shall be refunded. For the period the deposit is held by the Company, interest will be applied to the deposit for the number of days from the date the Customer deposit is received by the Company to and including the date such deposit is credited to the Customer's account or the date the deposit is refunded by the Company. Deposits held will accrue interest at the 3-month commercial paper rate published by the Federal Reserve Board.

3.0 GENERAL RULES AND REGULATIONS (cont'd)

3.12 NOTICES

Notices provided to the Customer by the Company shall be as follows:

3.12.1 Rate Information

Rate information and information regarding the terms and conditions of service shall be provided in writing upon request by a current or potential Customer. Notice of major rate increases and/or more restrictive terms or conditions of service shall be provided in writing to Customers and postmarked at least 30 days prior to the effective date of the change or on the date when the Company submits an amendment to its Tariff to the Commission requesting approval of such change, whichever date is earlier. The notice will describe the current and proposed rates, charges, terms or conditions, as appropriate. Such notice may be accomplished via one or more combination(s) of the following means: bill inserts, notice printed on bill, or separate notice sent first class mail (or by email to customer who receives bills from the Company by email). If Notice is provided by first class mail, such Notice is deemed complete when the envelop, with postage pre-paid, is deposited in the U.S. Postal system; and notice by email is complete upon successful transmission. No Customer notice shall be required for minor rate increases, or rate decreases.

3.12.2 Discontinuance of Service Notice

3.12.2.1 Notice by Customer

Customer is responsible for notifying the Company of its desire to discontinue service 30 days prior to disconnection. Such notice must be in writing. (See also Section 3.15.1)

3.0 GENERAL RULES AND REGULATIONS (cont'd)**3.12 NOTICES (cont'd)****3.12.2.2 Notice by Company**

- (b) The amount that is delinquent.
- (c) The date when payment or arrangements for payment are required in order to avoid termination
- (d) The procedure the Customer may use to initiate a complaint or to request an investigation concerning services or charges;
- (e) The telephone number of a representative of the Company, who can provide additional information or institute arrangements for payment.

3.12.3 Rules for Company Notices

Notices the Company sends to Customers, or the Commission, shall be a legible size and printed in a minimum point size type of 10 and are deemed made on date of presentation.

3.0 GENERAL RULES AND REGULATIONS (cont'd)

3.13 RENDERING AND PAYMENT OF BILLS

The Customer is responsible for payment of all charges for services and equipment furnished by the Company to the Customer. All charges due by the Customer are payable to the Company or to the Company's authorized billing agent upon presentation of the bill. Any objections to billed charges must be reported to the Company or its billing agent within twelve months after receipt of the bill. Adjustments to the Customer's bill shall be made to the extent circumstances exist that reasonably indicate that such changes are appropriate.

3.13.1 Customer Bill

The Company shall be identified on each Customer bill. Each bill will prominently display a toll-free number for service or billing inquiries, together with an address where the Customer may write to the Company. If the Company uses a billing agent, the Company will also include the name of such billing agent. Each bill for telephone service will contain notations concerning the following:

- (a) When to pay the bill;
- (b) Billing detail, including the period of service covered by the bill;
- (c) Late payment charges and when they apply;
- (d) In addition to the above, each bill shall include the following statement:

"This bill is now due and payable; it becomes subject to a late payment charge if not paid within 30 calendar days of presentation date. Should you question this bill, please request an explanation from ExteNet Asset Entity, LLC"

Company will also advise the Customer in writing of the Commission's formal and informal complaint procedures and that, if there is still disagreement after the investigation and review by the Company and the Company's written findings to the Customer, the Customer may appeal to the Commission within 10 days of the date the Company mailed its findings to the Customer.

3.0 GENERAL RULES AND REGULATIONS (cont'd)**3.13 RENDERING AND PAYMENT OF BILLS (cont'd)****3.13.2 Bill Payment**

Bills are due and payable on the date of presentation. A late payment charge may be applied if payment is not received by the Company on or before the late payment date that shall be prominently displayed on the Customer's bill. The late payment date will be at least 30 days after the date of presentation on the billing envelope. The Company shall credit payments within 24 hours of receipt to avoid assessing late payment charges incorrectly.

3.13.3 Surcharges

In addition to other sales and usage taxes, the Company will add to Customer's bill certain federal, state and local surcharges, as described in Section 1, Schedule 5.

3.13.4 Collection fees and expenses

In the event that the Company incurs fees or expenses, including attorney's fees, collecting, or attempting to collect, any charges owned to the Company, the Company may charge the Customer all such fees and expenses reasonably incurred, including a collection fee on the unpaid charges accruing at a rate of one-and-one half percent (1.5%) per month. Collection fees on unpaid charges shall begin to accrue when the account is assigned to an outside collection agency. Such collection fees are separate and distinct from attorney's fees and other costs incurred in collecting charges owed to the Company. In any legal dispute between the Customer and the Company, the non-prevailing party may be liable for court costs and attorney fees as determined by the court or the Commission.

4.1.2.5 Permanent Virtual Circuit ("PVC") Rate Elements

PVC Rate Elements relate to both the physical layer and the bandwidth required to create a PVC to transport Customer's CIR from the Head End to one or more POPs on the Company DAS network. The rate elements that will apply depend on the type of optical conversion and multiplexing methodology used to aggregate one or more Customer CIR Tiers over a PVC to one or more POPs.

4.1.2.8 SONET Ring Charge

The SONET Ring Charge applies to a PVC deployed on a SONET ring network configuration, using Dedicated Strand(s) or WDM, engineered in a point to multi-point configuration. SONET Ring PVCs may be provisioned using customary add/drop, physical interconnect or WDM technology for both originating and terminating traffic, from a head end to one or more POPs connected to the SONET Ring.
